M.R.A.C. Meeting Minutes
December 11, 1969
Milwaukee School of Engineering
1020 N. Braadway; Room 1#B

The meeting was called to order at 8 PM by W9ZPV.

The minutes of the October meeting were read and approved.

The treasurer's report was given. The current amount in the treasury is $ 984.97.

W9ZPV asked that news from all the area Amateur Radio Clubs be submitted for publication in the Hamateur Chatter. He stressed that membership in this club is not required and that all items of interest to local hams will be welcomed.

A.R.R.L. Official Bull iten #245 was read.

W9ZPV asked those present to consider whether they will prefer name buttons, which are available, or pocket I.D. holders which could also provide information about one's equipment ,etc. These will be used at future meetings to help introduce one-another.

All those present were asked to rise and introduce themselves. This was done.

W9GIL asked if any effort had been made toward getting the new A.R.R.L. film; "Ham's Wide World" for an early club showing. WA9JOV reported that this film has been ordered for showing at the Old Timers' Night on January 8th.

W9WVL suggested that the club offer thanks and congratulations to W9CTI for his splendid work in editing and producing the two new issues of Hamateur Chatter. The applaus was unanimous. An information sheet was passed around so that anyone having news items, or willing to hold an open-house for beginning Hams, could sign up.

A very interesting program demonstrating the use of an oscilliscope in feeding and tuning two meter and UHF antennas was presented by Harold Isenring, W9BTI assisted by W9BTQ.

Time ran out and the meeting was adjourned at ten PM.
